IMPORTANT NOTICE

RESPECTING SOME

Books mentioned in this Catalogue.

 **W**E beg leave to call your special attention to "**The London Law Monthly**," a Series of Text Books mentioned on page 60. Arrangements were made by us with the leading London Law Publishing Houses to supply at very low prices in **Canada** only, with a monthly issue of Standard Books. The demand for law books in Canada is necessarily limited, so, in order to insure the success of the Series, it requires the attention of nearly all the profession throughout the various Provinces. We take this opportunity of thanking those who are so liberally supporting this enterprise both by their subscriptions and expressions of appreciation for the class of books supplied by us in this Series, but from lack of support, we cannot continue the same longer than to fill our contracts with the London Houses and our customers.

Howell on Naturalization and Nationality in Can- ada;

Expatriation and Repatriation of British subjects;
Disabilities and Privileges of Aliens in Canada.
With notes, forms, etc. By ALFRED HOWELL.
Toronto, 1884. Cloth, \$1.50. Half-calf, \$2.00

"Mr. Howell has gone to no little trouble in collecting
orders in council, treaties and conventions with
foreign States, and other matters necessary to an
intelligent reading of the Act. Mr. Howell's
book is of exceeding value."—*The Week*, Oct. 2, 1884.

"The Act could not be understood or put into full practical
operation unless read side by side with orders in
council and other State papers referred to in it. In
the treatise now before us these have been collected,
and with Mr. Howell's annotations and a disquisition
on the old rule of perpetual allegiance in the United
Kingdom, Canada, and the United States, form a
complete exposition, in a condensed form, of the law
upon the subject."—*Can. Law Journal*.

"... It will, we think, be of use even to English-
men who are interested in the subject, as it contains
a rather full discussion of the views of great
English lawyers at the time of the passing of the
Naturalization Act of 1870, while to Canadian and
American lawyers the full appendix of forms in use
on both sides of the border cannot fail to be of ser-
vice."—*Law Times (London)*.

Rogers' Law of the Road,

Or the Wrongs and Rights of a Traveller by Rail, Stage, and Boat. By R. VASHON ROGERS. Cloth, \$1

The design of this little book is novel, and the reader will be vastly entertained. Mr. Rogers' plan is to convey law by means of a dialogue, and to introduce incidents which may be turned to account in their legal aspects. * * * When we add that every one of the legal statements, so fluently conveyed, is supported by reference to at least one decided case, it will be seen how much solid matter is contained in this lively solution. * * * "*Law Journal (England)*."

" * * * We can honestly say that whether this book be read by professional men or by the people at large, it will furnish sound and valuable information to whomsoever undertakes its perusal. * * * "*Can. Law Times*."

Rogers' (R. V.) Law and Medical Men.

A Concise Exposition of the Law relating to Medical Men. 1884. Cloth, \$1.50; half-calf, \$2

" * * * We need only say that the book is in Mr. Rogers' happiest vein, and should be on the shelves not only of the lawyer but of the medical man, as also of all others who wish to gain much interesting information in a pleasant and easy way. * * * "*Can. Law Journal*."

* * * His work is a novel and interesting one; novel in that under each topic treated, British Canadian and American cases and decisions are introduced quite promiscuously; and interesting in that each subject is thus made complete in itself and becomes an epitomized summary of the law of a large part of the world in regard to such topics. To dovetail all these cases together and bring out the effect of so many and such diverse decisions in a narrative form demanded very extensive study and singular ability. Mr. Rogers is to be credited with both these. . . . In the manner we have indicated the author treats of fees; who should pay the doctor; who may practice; negligence and malpractice; professional evidence; relations with patients; partners' good will; assistants; etc. * * *"—*The Chemist and Druggist, London, Eng.*

Stephens, (C.H.) on Joint Stock Companies.

A practical and vigorous exposition of the law of commercial Joint Stock Associations, in the form of a Commentary on the Canada Joint Stock Companies Act, 1877, with which is included most of the other Companies Acts, both general and local; with Forms, etc. Half-calf, \$7

* * * Mr. Stephens has treated the theme in a manner which will be appreciated by readers who desire to obtain in a brief compass a lucid statement of the development of the law on this subject; he has also shown great industry and thoroughness in his examination of decided cases, English and American, as well as Canadian. * * *"—*Legal News.*

* * * It is evident the work is a treatise and not a mere digest, and that the author has opinions which he is able and willing to express. A general history of Joint Stock Companies, in the introduction, we have done more than glance at, and found it admirable. * * *"—*Albany Law Journal.*

" * * There is a manifest and great advantage to the lawyer in this country in having the standard legal works of England and the United States reproduced here, when accompanied by full references to our Statutes and decisions; and when, in addition, there is a lucid exposition of that wherein, if at all, they differ, and the reasons for such difference, the value of such editions is vastly increased. We think we may safely say Mr. Taylor has done his duty well in both respects, showing a thorough mastery of the subject. * *"—*Can. Law Journal*.

" * * It is, however, in his tenth chapter, in which he comments on the section coming under the head of 'Effect of registering and omitting to register,' that Mr. Tiffany has put out most force, and his excellent discussion of the important questions raised by these sections, such as purchase for valuable consideration, and actual and constructive notice, is, we think, sufficient in itself to recommend his work to the favourable consideration of the profession."—*Can.
